Advocate voluntary cooperation and success. Litigation is last resort
Any weekday workshop is acceptable. Weekend time (Friday 3 PM - Monday morning) is family only.
HOW TO CHANGE STATE LAWS REGARDING MUNICIPALITIES RESPONSIBILITIES TOWARD THE PUBLIC VS CORPORATE INTERESTS.
How to get funding for County to hire more inspectors.
How to handle the Delaware County government to have them create laws to protect land development.
I can make any time slot work
i could make any of those times; i got this mailing through CCRIC and a location that works for them is fine for me too.
I think the workshop should be part of and paid for by EPA or federal funds that should come to help us clean up the problems in the Bay watershed.
I think we need in our County a linkage of cleaner waterways connected to a comprehensive approach to land use and zoning.
I would look forward to such a workshop!
impact on ecotourism which our business community hopes to develop.
Leadership in the use of federal and state laws to prohibit such activities when they represent clear and/or future impact on our health.
My scheduling for 7 is flexible. Information on what to advocate for/watchout for in the new stormwater regs as their implementation legislation is coming up in the counties.
Need specifics - not generalized approaches
New stormwater regs and MS4 permit; forest conservation enforcement.
not at this time, Thank You
preservation of existing resources
Regional solutions to the Delaware/ Chesapeake WATERSHED
Riverkeepers might be interested in doing a panel on litigation strategies? I'd have to check with the group.
Sierra Club Activist Tool Kit to save natural areas

Since I am elderly, I would be a willing "helper" but I do not have the stamina to be an "organizer." Sorry.
Some of the revenue from fines needs to go back to agencies responsible for inspections. PA DEP losing positions because of budget cuts.
we're really focusing on the elections this year! we're the political people not the policy people.
The "takings" issue regarding land use
The Sierra Club chapter responsible for this area "appears" to be silent and not really helpful in this area. How do we change that?
There are a lot of people in Sussex County who are very concerned about our environment but don't know exactly what to do to bring about change.....
True overview of the factual failings of our law enforcers to protect the critical areas.
Virginia could use an environmental litigation organization much like the Pace University Law School Environmental Litigation Clinic.
what can the average citizen do beyond joining a conservation group, or going it alone?
